

Assignment 5: Under (blood) pressure

Sangwon Yum

2024-01-27

Exercise 1

```
# blood_pressure %>%  
#   pivot_longer(cols = Age:Pulse, names_to = "measurement", values_to = "value") %>%  
#   ggplot() +  
#     geom_point(mapping = aes(x = value, y = Systol)) +  
#     facet_wrap(~ measurement, scales = "free_x") +  
#     geom_smooth(mapping = aes(x = value, y = Systol), method = "lm") +  
#     labs(x = "Measurement Value", y = "Systolic Blood Pressure", title = "Scatter Plot of Va
```
